Piano lessons for all ages - preschool through adult

Experience the joy and appreciation of music through piano study.

A curriculum tailored to each individual student, and including

Technique

Music Theory

Improvisation

Composition

Duets & 2-piano repertoire

Learning to play the piano is an enduring skill which will continue to bring pleasure throughout the student's life. In addition, music study provides an outlet for creativity, and helps the student develop and improve

-confidence and poise

-initiative

-attention span and concentration

-visual and aural memory

-time management and organizational skills

Success in music study requires understanding, cooperation, and communication between students, parents, and teacher.

Parents are always welcome to visit the studio.
